This table is based on place of usual residence.

(a) Measures the number of people who reported that they have been told by a doctor or nurse that they have any of these long-term health conditions. Includes health conditions that have lasted or are expected to last six months or more, may occur from time to time, are controlled by medication or are in remission.

(b) 'COPD' refers to Chronic Obstructive Pulmonary Disease

(c) Includes any long-term health condition other than the ones listed.

(d) Respondents had the option to record multiple long-term health conditions therefore the sum of total responses count will not equal the total person count.

Please note that there are small random adjustments made to all cell values to protect the confidentiality of data. These adjustments may cause the sum of rows or columns to differ by small amounts from table totals.
